 - iii. Ben had to redo the budget format. Now it is more readable. Nathan, Quinten, and Ben attended the Kiwanis financial committee meeting. Additionally, Ben helped facilitate this Summer Board meeting. He is currently contacting all treasurers to get into the membership update center before the school starts. Quinten and Ben are also making a financial plan for multiple years. Moreover, Michigan Circle K's nonprofit status is in progress.
 - iv. Sean worked on the handbook to update it. There will be a video about Circle K to recruit members. Noah Stoffel from Northwood University will be the executive producer. Sean wants to create basic transition packets for club positions. Additionally, he is working with the University of Michigan Dearborn to become a club.

b. Club Updates

i. Adrian College – Not here

They are working on typing their bylaws into a word document so that they have a digital and a hard copy. Also, they have established a Pinterest board to collect different service projects, t-shirts, ice breakers, party decorations, and other things their club can use.

They are worried that there is no transition kit coming into the presidency. However, they feel confident that Adrian is going to have a great year! They hope they can do more group service projects and build on membership.

ii. Central Michigan University

They had two members, Ben and Sean, attend CKIx and their club took home two international awards! They are currently planning and setting goals for the upcoming year. Particularly, CMU CKI is preparing for Main Stage on August 27, an event where incoming students are introduced to the clubs and groups that are present on campus.

iii. Concordia University – Not here

iv. Monroe County Community College – Not here

Some of their members volunteered for Monroe High School After Graduation Party, Relay for Life, and the Flat Rock Speedway.

v. Madonna University – Not here

They are working on different service projects they can do during the next school year. They would like ideas on how to get more members in their club.

vi. Eastern Michigan University

They have been working on gearing up for the upcoming fall. EMU CKI has a meeting coming up with their advisers to hammer out plans. The main concerns they have are membership gaining, membership retaining, and service projects. Additionally, one of their members, Luke, went to CKIx.

vii. Ferris State University

Their E-Board is working on the details of Snowpia, their haunted house, and a possible beginning of the year social. FSU CKI is also considering the idea of new member gift bags to use as incentives. Their main concern right now is a lack of communication between the board members of their club.

viii. Grand Valley State University – Not here

They are still working on a time and date for their board to have a giant skype call to plan some things for next year and cook up some recruiting ideas. Additionally, GVSU CKI is also working on finding a new time and date for their meetings because their old meeting time conflicts with class schedules of some board members.

ix. Lake Michigan College – Not here

They are off for the summer season since they are a new club. Additionally, they are getting the logistics worked out to smooth their operations next year.

x. Hillsdale – Not here

xii. Michigan State University

They have signed up for Sparticulation, the biggest fall club recruiting fair! Their Eboard will meet or have a phone conference sometime in early August to discuss an interclub, go over club bylaws, and talk about moving forward during the next school year. MSU CKI wants to focus on recruiting.

xiii. Oakland University

Four of their members went to CKIx and brought back some valuable ideas for the upcoming year! They still have events throughout the summer but with less attendance. They are planning an Eboard meeting in July to address any ideas, concerns, and goals for the upcoming year. Unfortunately, they lost their secretary and will be holding elections for that position in the fall. Additionally, they are trying to build their name on campus to gain new members.

xiv. University of Michigan – Ann Arbor

They have been working really hard on recruitment, attending summer orientation to talk about Circle K to incoming freshman. As an LT and committee system, they have been working on their Service Day that will be November 12 and 13. So far, they have around 200 organizations looking for projects and working on some

other donations as well. Additionally, their club had five people go to CKIx!

Kathleen, their president, is working on laying out the meeting and workshop schedule for the year and organizing their office. Their past geocaching social was a big hit.

xv. Wayne State University

They have been working on planning for DCON. This included asking restaurants to help them put on fundraisers. They have decided that DCON will most likely be March 24 to 26. They are also planning a service and social event for the end of July or early August.
